QUANTUM TOUCH

Gene Skaggs is a Certified Quantum Touch Level 2 Instructor, one of only 16 people in the continental United States to hold this title.

Quantum Touch is a method of hands-on healing that must be experienced to be believed. Employing only a very light touch the practitioner/instructor can move bones into their proper alignment and infuse organs and glands with subatomic life force energy. The effect is so immediate and extraordinary that you can actually see bones spontaneously realigning themselves. Since the body decides where to place these bones, pain and inflammation are quickly reduced, systems and glands become balanced. The energy also addresses emotional and causal beliefs stored in the subconscious mind.

In addition, Quantum Touch may be used to “youth” the body as an additional process. The combination of Quantum Touch and the Art of Youthing enables the biological age of the cells to be reduced as the telomere cells elongate themselves.

Gene has worked with clients to remove the effects of various types of cancer, autoimmune diseases, structural alignment, addictions, weight issues, heart attacks, stroke, headaches, inner ear, tinnitus, shoulder, hips, knee, digestion, diabetes, blood pressure, sleep issues, acid reflux, arthritis, asthma, hormones, multiple sclerosis, Parkinson, scoliosis, viruses, shingles, and numerous other diseases and emotional issues.

Gene has written 4 books on A Course in Miracles and teaches it weekly via Zoom. His son Anderson, after he laid his body down in 2009, gave him information from the other side that has resulted in 3 books. He is also a PSYCH-K facilitator, as well as Access the Bars.

Joe Dispenza: “Nothing changes until you change it energetically.”
